Tariff:

The transmission fees are calculated in accordance with the current MEKH Decree on gas network access fees, the rules of using incentives for improving service quality by the network operator by means of network access pricing, on applicable network fees depending on service quality, and on the conditions of applying network access fees, 1/2013.(VII.11.), Tariff Decree and its amendments.

Request and Allocation mechanism:

Requests shall be submitted not later than 22nd of June 2015. midnight.

In case of overbooking MGT will allocate its above offered capacities to the requestors according to monthly capacity auction based on 8.6.1.5 point of Grid Code. In case one requestor submit higher request than the above offered capacities MGT will curtail its request to the above offered level and allocate according to that.

Contract will be accepted from MGT in case Slovak Transmission System Operator: eustream a.s. will confirm equal contract on the Slovak side either by the System user or its Shipper pair. Contract will be binding in case of properly signed contract by MGT being delivered to system user.

According to the Government Decree 19/2009 (I. 30.) implementing the Act XL of 2008 on Gas Supply (GET) , no financial obligation and no capacity booking is required at Vecsés connection point, but requestors must have KFSZRI contract with FGSZ for transition to the adjacent FGSZ system.

Bidders shall undertake to conclude a transmission contract with MGT and eustream in case of an accepted capacity request.

Requestor shall undertake to conclude an IT Platform Agreement, which will be signed no later than 5th working days before the first requested gas day

Requestor shall be submitted its shipper pair by the adjacent System Operators no later than 5th working days before the first requested gas day. In default of it MGT is not able to accept the nominations.

MGT shall require financial guarantee, which shall be the precondition for concluding the contract.
